# HMF Knuckle Boom Loader 760-K

## Versatile Loader for a wide range of Tasks

- The HMF 760-K Series is a durable loader with low tare weight, long out-reach and high working speed.
- The 760-K is suitable for both hook applications and for use in conjunction with hydraulic attachments such as rotator and grab, which make this 7 tonne-metre loader a very useful versatile lifting tool.
- Modular jib system, which allows for changes to the number of extensions without detriment to existing components.
- Oil regeneration system in all extension cylinders, providing high working speeds on movements of the jib extension system.
- The 760-K is available with a wide range of operation options including; ground control, radio remote control or stand-up control.
- Supplied with the RCL Safety System as standard, which constantly monitors loader operating conditions such as load moment, operation and function.
- Can be specified with 2-stage LMB or EVS safety systems, which allow the operator to concentrate on difficult tasks whilst ensuring the vehicle remains stable.
- The loader series is available with a wide range of optional extras including; manual extensions, oil cooler, spotlight and height indicator.
